Comment		Best in test	Good waterproofing but lacks breathability. Dries quickly.	Relatively well insulated. Dries quickly and has good breathability.	Lined natural rubber. Best waterproofing. Weaker insulation and breathability.	Low waterproofing. Good breathability and dries quickly.	Low breathability, dries slowly.	Very low waterproofing, retains heat well.	Very low breathability and low waterproofing. Dries very slowly.	Very low water-proofing. Low breathability, dries slowly.
